

Is This You?

- You are returning home after surgery.
- You are recovering from an illness.
- You are seeking to reduce a stay in a hospital or nursing home.
- You have a wound which has not fully healed and requires attention.
- You have a chronic health condition that could worsen and would benefit from skilled monitoring.
- You are receiving injections or IV therapy.
- You require physical or speech therapy.
- You need help adjusting to new medical equipment, therapeutic diet, or medications.
- You require taxing effort to leave the home and therefore you leave the home infrequently.

Then you need us.

HOME HEALTH ASSOCIATES

Advantages of Care with Home Health Associates

- Home Health Associates delivers your care in the more comfortable, less costly environment of your own home.
- Home Health Associates does not require you to see different doctors. Your personal doctor will supervise your care.
- We can make multiple visits spread over weeks or months to make sure your recovery proceeds according to plan.
- Recovery from stroke and other challenges achieves greater gains when at least part of the rehabilitation occurs in the home environment where people will continue to live long-term.
- The actual home makes the best classroom for teaching health and safety strategies that people will use while living at home.

The HHA Team

You can receive many of the same services available from a hospital or nursing home in the comfort of your own home. Home Health Associates can send a variety of health professionals right to your door:

Skilled Nurses • RN, LVN
Nurses Certified in:
Wound Vac, IV Therapy
Home Health Aides

Physical Therapists • Occupational Therapists
Speech Therapists • Medical Social Workers

Payment

Medicare pays 100%. Qualified patients with Medicare have no co-pays and no deductibles.

Our Mission

We strive to provide and to continuously improve value-driven, high quality, compassionate home health care. The mission of Home Health Associates is to participate as an active part of the community and to continually improve the state of health care.
